

For areas with high air tightness requirements

**GEZE MCRDRIVE MODULAR  
SLIDING DOOR SYSTEM**

# Solution for hermetic door requirements

**MIX &  
MATCH!**

GEZE MCRDRIVE MODULAR SLIDING DOOR SYSTEM

# Mix & Match!

GEZE MCRdrive is a modular sliding door system for areas of buildings where hermetic air tightness is required.

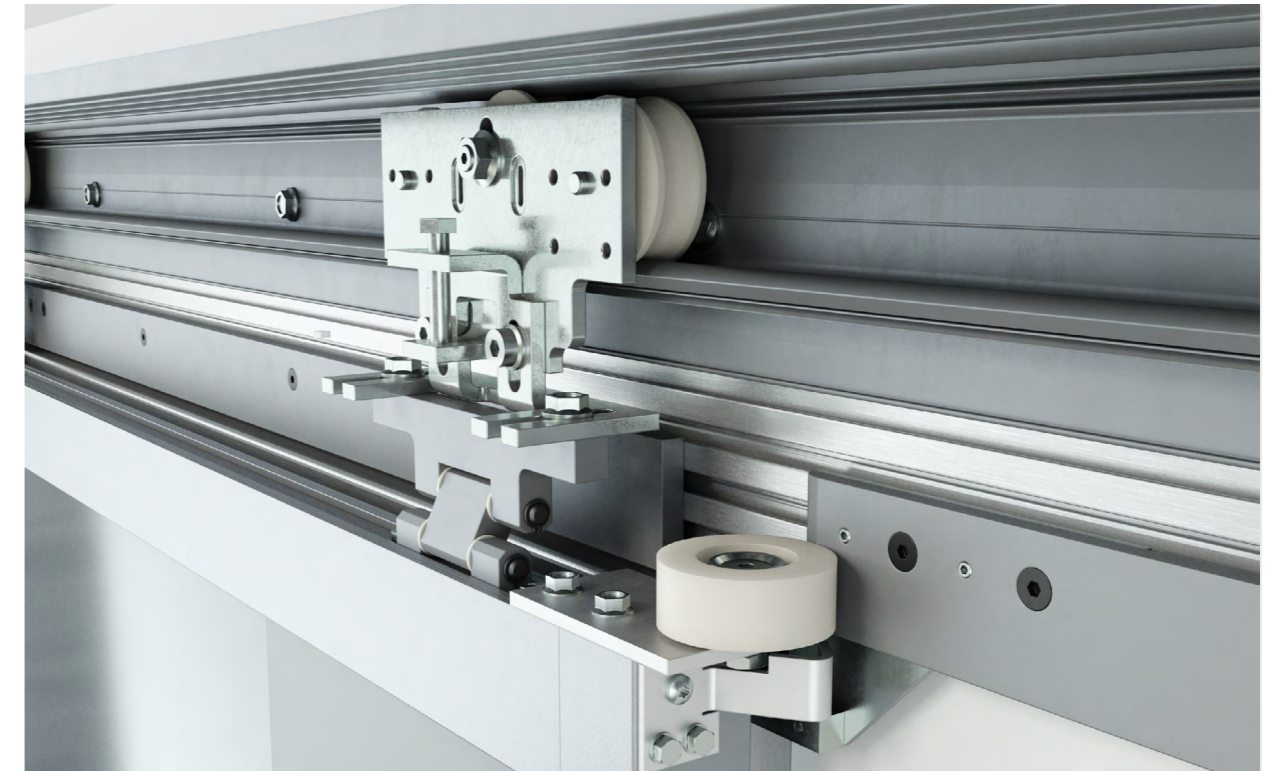

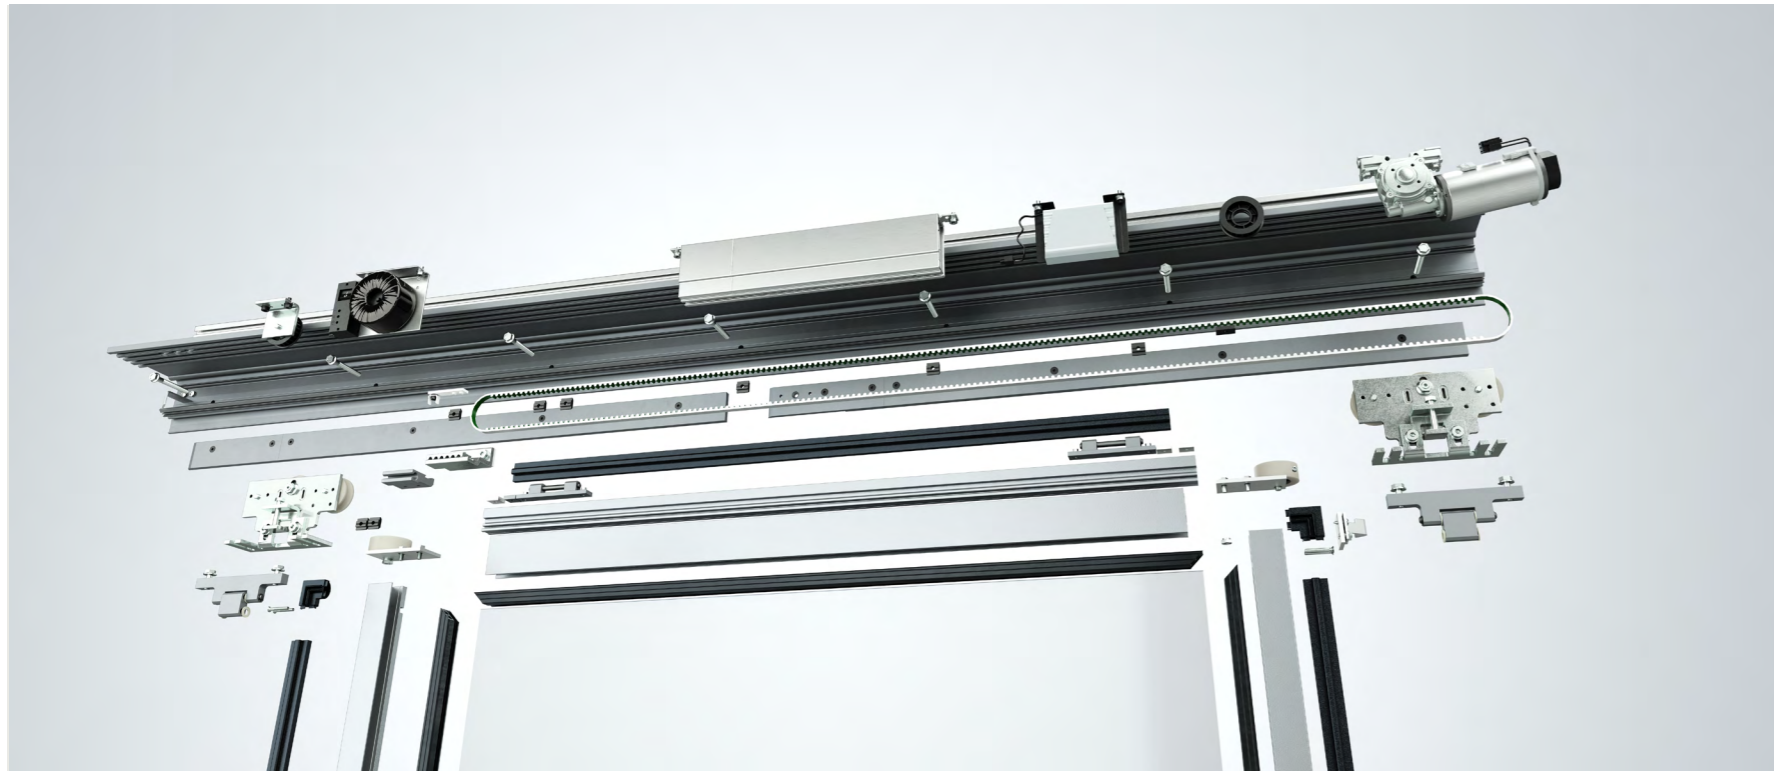

What makes it special: GEZE MCRdrive offers a standard-compliant and certified overall system and fulfils the requirements of building projects with modern and appealing design concepts. In addition, thanks to its modular design and uniform profile and sealing system, the GEZE MCRdrive provides configuration options for maximum customisation to customer needs.

From planning, installation and commissioning to service during operation, the GEZE MCRdrive offers a complete package that can be customised and combines functionality, product safety and user comfort.

GEZE MCRDRIVE MODULAR SLIDING DOOR SYSTEM

# Hermetic, modular, certified

## AREAS OF APPLICATION:

The sliding door system was specially designed for use in access areas to operating rooms, quarantine rooms and intensive care areas in hospitals, laboratories in research institutions, and in the pharmaceutical and food industries.

## PRODUCT FEATURES:

- TÜV type tested in accordance with DIN 18650 / EN 16005
- Air permeability class in accordance with EN 1026 / EN 12207
- Sound insulation requirements in accordance with EN 4109 of 37 dB
- Radiation protection via lead insert according to DIN 6834-1

GEZE MCRDRIVE MODULAR SLIDING DOOR SYSTEM

# Modular design, maximum flexibility

GEZE MCRDRIVE MODULAR SLIDING DOOR SYSTEM

# At a glance

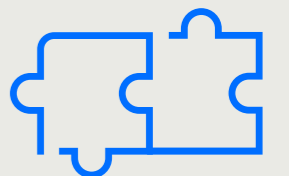

## EFFICIENCY BY DESIGN

- Simple and quick installation thanks to assembly tolerances and the option to perform fine adjustments of the door leaf to meet the structural requirements on site
- Low processing complexity, simple product concept
- Interface for networking to the building management system
- Simple configuration and ordering

## MODULAR CONCEPT

- Maximum customisation thanks to a choice of selecting the MCR core components only or the MCR drive kit or secondary components: Comprehensive GEZE MCRdrive system, GEZE MCRdrive drive kit or available additional components
- Universal profile and sealing system for glass, HPL or stainless steel door leaf designs
- GEZE offers the complete package from consultation, planning and installation of the customised solution to service during operation

## TESTED AND CERTIFIED SLIDING DOOR SYSTEM

- TÜV type tested in accordance with DIN 18650 / EN 16005
- Air permeability class in accordance with EN 1026 / EN 12207
- Sound insulation requirements in accordance with EN 4109 of 37 dB
- Radiation protection via lead insert according to DIN 6834-1

## DESIGN-ORIENTED SOLUTION

- Sophisticated profile system for creating an elegant, slim appearance and large glass surfaces
- Innovative overall concept
