

SUSTAINABLE BUILDING SOLUTIONS

Our solutions meet the diverse technical demands of civil and industrial construction, offering innovative systems for drainage, protection, water management, and waterproofing of structures and coverings.

We also provide advanced energy-saving techniques that enhance efficiency and sustainability, along with solutions for housing comfort through effective condensation and moisture control.

Additionally, we address external flooring needs with durable and functional options that are both robust and visually appealing. By integrating smart technologies with environmentally responsible practices, we ensure efficient, modern solutions that align with the evolving needs of construction projects and sustainability goals.

Engineering a Better Solution

Maccaferri's motto is 'Engineering a Better Solution'. We don't merely supply products, but work in partnership with our clients, offering technical expertise to deliver versatile, cost effective and environmentally sound solutions. We aim to build mutually beneficial relationships through the quality of our service and solutions.

GLOBAL ENGINEERS

In the second half of the 19th century, we invented Gabions and dramatically changed the civil engineering landscape. We are still changing it today. We work every day to find better solutions for our clients at every degree of latitude and longitude. Our worldwide network grows through innovation and diversification of sectors of activity and through an increasing range of high quality and environmentally friendly products and applications.

OFFICINE MACCAFERRI GROUP PROFILE

Founded in 1879, our Group soon became a worldwide reference in the design and development of advanced solutions, with offices in over 70 subsidiaries and 20 factories worldwide.

Our mission is to pursue excellence through continuous improvement, while delivering to customers engineered solutions that are innovative, advanced and environmentally friendly. We are committed to outstanding safety, quality and sustainability, to create value for all stakeholders as well as our communities.

- RETAINING WALLS & SOIL REINFORCEMENT
- SOIL STABILIZATION & PAVEMENTS
- DRAINAGE OF STRUCTURES
- FENCING & WIRE
- HYDRAULIC WORKS
- BASAL REINFORCEMENT
- TUNNELLING
- AQUACULTURE NETS/CAGES
- ROCKFALL PROTECTION & SNOW BARRIERS
- COASTAL PROTECTION, MARINE STRUCTURES & PIPELINE PROTECTION
- LANDSCAPE & ARCHITECTURE
- CONCRETE FLOORING, PRECAST & OTHER USES
- EROSION CONTROL
- ENVIRONMENT, DEWATERING & LANDFILLS
- SAFETY & NOISE BARRIERS
- INDUSTRIAL MANUFACTURING

SUSTAINABLE BUILDING SOLUTIONS

BUILDING FOUNDATIONS
TerraDrain® M

Any structure in direct contact with soil requires proper waterproofing to preserve its properties and ensure the intended design lifespan.

ROOF GARDEN
TerraDrain® M & W

TerraDrain provides excellent stormwater runoff, enhances structural stability, and prevents root rot in green roofs with efficient drainage.

PARKING AREA
TerraDrain® W

Any structure in direct contact with the ground requires adequate water protection to preserve its properties and ensure its intended lifespan.

RETAINING WALLS
TerraDrain® M

Any element built in direct contact with the soil requires proper protection against water to maintain its properties and expected design life.

METALLIC ROOF
ItalMat & ItaltecnoMat

Maccaferri roofing products are the combination of a highly breathable, waterproof membrane and a polymeric three dimensional net.

GREEN PARKING AREAS
Multicomposite for grass protection

Multicomposite for green areas protects lawns in parking zones, preventing damage to the grass caused by vehicle parking.
